ASWIN VIJAYAN

FULL-STACK WEB DEVELOPER • MERN & NEXT.JS

Palakkad, Kerala, India
aswinvijayan.c.s@gmail.com | +91 90743 46381
github.com/Aswin-cs

PROFESSIONAL SUMMARY

Analytical Full-Stack Web Developer and Mathematics graduate with expertise in building performant, modern web applications using the MERN stack and Next.js. Combines rigorous logic (Linear Algebra, Graph Theory) with clean software engineering to design scalable REST APIs, responsive UIs, and robust server architectures.

TECHNICAL SKILLS

Frontend:	React.js, Next.js (App Router), JavaScript (ES6+), Redux Toolkit, HTML5/CSS3
Backend & DB:	Node.js, Express.js, MongoDB, Mongoose ORM, RESTful APIs, NextAuth.js, Middleware Architecture
Tools & Dev:	Git, GitHub, Postman, Vercel, VS Code
Mathematics:	Abstract Algebra, Linear Algebra, Graph Theory, Numerical Methods, Data Structures

CORE TECHNICAL FOCUS

Full-Stack Architecture & API Design

MERN & Next.js Stack

- Architect scalable Next.js applications using App Router, Server-Side Rendering (SSR), and dynamic routing.
- Implement authentication pipelines, session persistence, and secure authorization rules using NextAuth.js.
- Design structured Mongoose models and high-throughput Express REST endpoints with optimized database queries.

Frontend Engineering & UI Performance

React

- Build responsive, accessible, and high-contrast user interfaces focused on clean UX and strict design guidelines.
- Manage complex client-side application states using Redux Toolkit and React Context API.

EDUCATION

Bachelor of Science (B.Sc.) in Mathematics

Graduated: Apr 2026

NSS College, Ottapalam (Affiliated with University of Calicut) • Palakkad, Kerala

- **Core Coursework:** Abstract Algebra (Rings & Ideals), Linear Algebra, Graph Theory, Numerical Analysis.
- **Academic Project ("IDEAL"):** Conducted research on algebraic ideal structures and ring theory models.

CORE COMPETENCIES

RESTful APIs | **System Architecture** | **Database Schema Design** | **Algorithmic Problem Solving** | **Clean Code** | **Version Control (Git)** | **AI / Data Science Foundations**
